

Automotive Window Door Rubber Seal Strip

Find a huge selection of Automotive Window Door Rubber Seal Strip from China at KINGTOM.

Automotive Door Rubber Seal Strip Can effectively prevent external wind and rain, dust and other harmful substances into the car, reduce the vibration of the car in driving doors, Windows and other parts to maintain the comfort and cleanliness of the car, and make the sealing parts or devices of the working environment is improved,

the working life can be prolonged.

KINGTOM is a professional China Automotive Window Door Rubber Seal Strip manufacturer and supplier. **Automotive Door Rubber Seal Strip** Can effectively prevent external wind and rain, dust and other harmful substances into the car, reduce the vibration of the car in driving doors, Windows and other parts to maintain the comfort and cleanliness of the car, and make the sealing parts or devices of the working environment is improved, the working life can be prolonged.

Product Parameter of the Automotive Window Door Rubber Seal Strip:

- ①Product name: **Automotive Window Door Rubber Seal Strip**
- ②Material: EPDM NBR Silicon or Can Custom
- ③Logo: Can Custom
- ④Size: Can Custom
- ⑤Can Custom: Black or custom
- ⑥Application: Automotive
- ⑦Certifications: IATF16949 ,ISO14001:2015,ROHS,CMC, etc
- ⑧Delivery: 30 -50days after sample confirmation
- ⑨Sample: 25-30 days
- ⑩Payment: 30% deposit, 70% payment before shipment
- ⑪Package: PE bags, Cartons,Pallet

⑫ Payment Terms: T/T, L/C and so on.

⑬ Shipment Way: Vessel, Air, Express etc.

Product Feature AND Application of the **Automotive Window Door Rubber Seal Strip:**

Automotive window door rubber seal strip is one of the important parts of automobile, widely used in door, window, body, seat car seal (4) chair, skylight, engine case and trunk and other parts, with waterproof, sealing, sound insulation, dustproof, anti-freezing, shock absorption, heat preservation and energy saving important role. It must have strong tensile strength, good elasticity, good temperature resistance and aging resistance. In order to ensure the fastening of rubber strip and profile, the sectional size of rubber strip must match the profile.

Car window door rubber seal strip is widely used in car front and rear windshield, door, window, engine room, trunk and other body parts to fill the gap between body parts, with shock absorption, waterproof, dustproof, sound insulation, decoration and other functions, and play a role in the maintenance of the company and the vehicle.
