

## Automotive Wiring Harness Waterproof Rubber Stoppers

KINGTOM is a major manufacturer and supplier of rubber products in China. Automotive Wiring Harness Rubber Stoppers can prevent dust or water from entering the interior of the car and causing damage to the internal components due to the various transmission interfaces set up on the car.

KINGTOM is a major manufacturer and supplier of rubber products in China. **Automotive Wiring Harness Rubber Stoppers** can prevent dust or water from entering the interior of the car and causing damage to the internal components due to the various transmission interfaces set up on the car.

### Product Parameter of the Automotive Wiring Harness Waterproof Rubber Stoppers:

①Product name: **Automotive Wiring Harness Waterproof Rubber Stoppers**

②Material: EPDM NBR Silicon or Can Custom

③Logo: Can Custom

④Size: Can Custom

⑤Can Custom: Black or custom

⑥Application: Automotive

⑦Certifications: IATF16949 ,ISO14001:2015,ROHS,CMC, etc

⑧Delivery: 30 -50days after sample confirmation

⑨Sample: 25-30 days

⑩Payment: 30% deposit, 70% payment before shipment

⑪Package: PE bags, Cartons,Pallet

⑫Payment Terms: T/T,L/C and so on.

⑬Shipment Way: Vessel,Air,Express etc.

### Product Feature AND Application of the Automotive Wiring Harness Waterproof Rubber Stoppers:

Waterproof rubber stoppers for car characteristics: can withstand high temperature rubber material soft easy to operate, anti vibration, sealing, can be reused,high temperature, acid and alkali resistance.

Specifications: specifications of many types, different shapes, we can be customized according to customer requirements and drawings, mold or sent samples.

When automobile wiring harness passes through the hole, rubber parts are generally used for transition, so as to play the role of wear-resisting, waterproof and sealing. Mainly distributed in the following parts: engine and cab interface, front cabin and cab interface (a total of 2), four doors (or back door) and car interface, fuel tank entrance. The commonly used materials are natural rubber, neoprene, silicone rubber, EPDM and so on.
